

Actividad | #1 | Instalación XCode

Desarrollo de Aplicaciones Móviles

Ingeniería en Desarrollo de Software

TUTOR: Sandra Lara

ALUMNO: Erick Alfredo Quiroz Figueroa

FECHA: 24/07/2026

Contenido

Desarrollo	3
Codificación	3
Prueba de la aplicación	5

Desarrollo

Codificación

```
import Foundation
```

```
var numero : Int;
```

```
print("Dime un numero: ")
```

```
numero = Int(readLine()!)
```

```
if numero % 2 == 0
```

```
{
```

```
    print("El numero es par")
```

```
}
```

```
else
```

```
{
```

```
    print("El numero es impar")
```

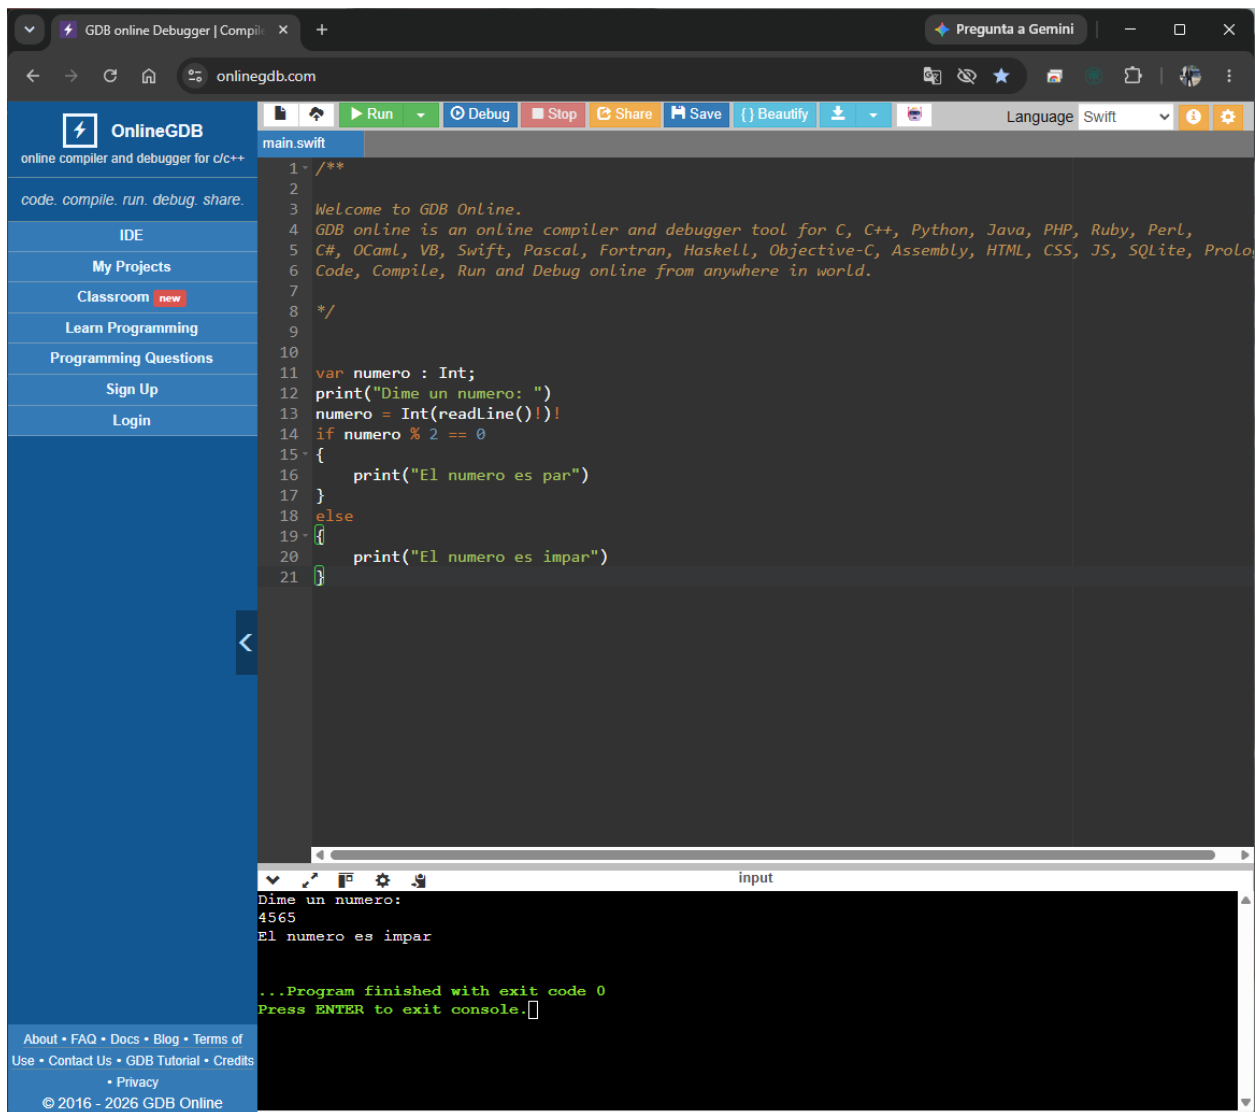

```
}
```

The screenshot shows a Replit Swift Main environment. The left sidebar contains instructions in Spanish for building a backend route and launching the design. The main editor displays a Swift file named `main.swift` with the following code:

```
1 import Foundation
2
3 var numero = Int;
4 print("Dime un numero: ")
5 numero = Int(readLine()!)
6 if numero % 2 == 0
7 {
8     print("El numero es par")
9 }
10 else
11 {
12     print("El numero es impar")
13 }
14
15 var numero2 = Int;
```

The bottom status bar indicates the file is `main.swift`, the language is `Swift`, and the cursor is at `Ln 15, Col 1` with `Spaces: 2` and `History` options.

Prueba de la aplicación

The screenshot shows the OnlineGDB web interface in a browser. The URL is `onlinegdb.com`. The interface includes a sidebar with navigation links: IDE, My Projects, Classroom (marked as new), Learn Programming, Programming Questions, Sign Up, and Login. The main area displays a Swift file named `main.swift` with the following code:

```
1- /**
2-
3- Welcome to GDB Online.
4- GDB online is an online compiler and debugger tool for C, C++, Python, Java, PHP, Ruby, Perl,
5- C#, OCaml, VB, Swift, Pascal, Fortran, Haskell, Objective-C, Assembly, HTML, CSS, JS, SQLite, Prolog.
6- Code, Compile, Run and Debug online from anywhere in world.
7-
8- */
9-
10-
11- var numero : Int;
12- print("Dime un numero: ")
13- numero = Int(readLine()!)
14- if numero % 2 == 0
15- {
16-     print("El numero es par")
17- }
18- else
19- {
20-     print("El numero es impar")
21- }
```

Below the code editor, the console output is visible, showing the program's execution:

```
input
Dime un numero:
4565
El numero es impar

...Program finished with exit code 0
Press ENTER to exit console.
```

The footer of the page contains links for About, FAQ, Docs, Blog, Terms of Use, Contact Us, GDB Tutorial, Credits, and Privacy, along with the copyright notice: © 2016 - 2026 GDB Online.

The screenshot displays the OnlineGDB web application in a browser. The interface includes a top navigation bar with buttons for Run, Debug, Stop, Share, Save, and Beautify. A left sidebar contains links to IDE, My Projects, Classroom, Learn Programming, Programming Questions, Sign Up, and Login. The main editor area shows a Swift file named 'main.swift' with the following code:

```
1- /**
2-
3- Welcome to GDB Online.
4- GDB online is an online compiler and debugger tool for C, C++, Python, Java, PHP, Ruby, Perl,
5- C#, OCaml, VB, Swift, Pascal, Fortran, Haskell, Objective-C, Assembly, HTML, CSS, JS, SQLite, Prolog.
6- Code, Compile, Run and Debug online from anywhere in world.
7-
8- */
9-
10-
11- var numero : Int;
12- print("Dime un numero: ")
13- numero = Int(readLine()!)
14- if numero % 2 == 0
15- {
16-     print("El numero es par")
17- }
18- else
19- {
20-     print("El numero es impar")
21- }
```

Below the editor, the console output is visible, showing the program's execution:

```
input
Dime un numero:
4564
El numero es par

...Program finished with exit code 0
Press ENTER to exit console.
```
